Summary

I am interested in modernizing the grid and optimizing its integration of renewables by applying descriptive, predictive and prescriptive analytics. My broader interest encompasses the utilization of Artificial Intelligence to foster Sustainability. Looking for opportunities to transfer and improve my knowledge and skills. The technical skills are presented as Acquired Expertise in the Experience section.

Education

University of North Carolina at Charlotte (UNCC) <i>Ph.D in Electrical Engineering, GPA 4.0</i>	USA 2014–2018
Southern Illinois University at Carbondale (SIUC) <i>M.Sc in Electrical and Computer Engineering, GPA 4.0</i>	USA 2010–2012
Higher Polytechnic Institute & College of Industrial Technology at Misurata <i>DipHE in Instrumentation 82%, and B.Tech Electromechanical Engineering, 86%</i>	Libya 2002–2008

Experience

Research Fellow <i>Northumbria University, Department of Mathematics, Physics and Engineering</i> Supporting the delivery of the “Hydrogen Integration for Accelerated Energy Transitions (HI-ACT)” research project. ◦ Acquired Expertise: <i>Hydrogen Integration, Energy Transition & Sustainability, Research Methodologies & Project Supervision</i>	UK May 2024–Present
Researcher <i>Halmstad University</i> Postdoctoral Researcher at the Center for Applied Intelligent Systems Research (CAISR). Dig into research related to AI for Sustainability by applying Machine Learning techniques. ◦ Acquired Expertise: <i>Integrated Industry-Academia Collaboration, Big-Data & Spatiotemporal Analysis, Explainable AI (XAI).</i>	Sweden April 2022–April 2024
Lecturer <i>College of Industrial Technology at Misurata</i> Taught Electrical Circuits, Electrical Measurements, Math 101. ◦ Acquired Expertise: <i>Curriculum Revision & Preparing, Dedication, Listening, "Try to Modeling the Student's Way of Thinking".</i>	Libya February 2020–March 2022
Research Assistant <i>Energy Production and Infrastructure Center (EPIC) at UNC Charlotte</i> Statistical and Predictive Analytics to Modernize the Grid and Optimize its Integration of Renewables, Focusing on Solar Energy Resources. Supervised by Prof. Badrul Chowdhury. ◦ Acquired Expertise: <i>Energy Analytics, Energy Markets, Renewable Energy & Supply Chain, Machine Learning.</i>	USA 2014–2019
M.Sc Research <i>Department of Electrical and Computer Engineering at SIUC</i> Optimization for Electric Power Systems Including Wind Power, Supervised by Prof. Constantine Hatziaodoniu. ◦ Acquired Expertise: <i>Power Systems Analysis, Operation and Planning, Systems Optimization, Smart Grid.</i>	USA 2010–2012
Teaching Assistant and Lab Instructor <i>College of Industrial Technology at Misurata</i> Taught Mathematics, Power Systems Analysis, and Programmable Logic Controller (PLC). ◦ Acquired Expertise: <i>Teaching, Tutorials, Lab Modeling & Simulations.</i>	Libya 2008–2009

Electrical Technician

Residential Electrical Wiring and Water & Wastewater Company

Wiring and maintain electrical control equipment. Repair and rewind AC motors at the pumping stations.

○ Acquired Expertise: *Electrical Wiring & Installations, Maintenance & Operation.*

Libya

2000–2008

Recognitions

Outstanding Reviewer: IEEE Transactions on Sustainable Energy	2017
Third Prize for Student Papers: The 47th North American Power Symposium	2015
The Institute Prize for team of Energy Analytics Lab at UNCC: Global Energy Forecasting Competition	2014
The 1st Place: Department of Electromechanical Engineering at College of Industrial Technology	2008

Publications

Wrote dozen of published papers, for the complete list of publications, please see my profile at Google Scholar, which is named as: [Mohamed Abuella](#). Accumulating over 500 citations and current H-index is **8**. my [ORCID](#).
